

COLLECTION PREMIÈRE MOSCOW

+++ Handmade in Russia

At the upcoming **CPM – Collection Première Moscow**, the “Handmade in Russia” area will be in its new home, located in hall 82 with the Accessories segment. During the trade show from 20 to 23 February 2017, this hall will be the central location for handmade accessories. The special, affordable package, along with what is now an ideal environment for these handmade creations, has caused the demand for “Handmade in Russia” among designers to soar.

The second edition of “Handmade in Russia”, which took place in September of this year, already drew three times as many exhibitors as the February show. The demand is high. At the last show, 20 designers found room for their collections, and the area will be increased to accommodate 36 presentation spaces for the upcoming show. “Handmade in Russia” not only welcomes creative from Russia — international designers with craftsmanship skills may also submit applications for the February edition. The official registration deadline for this area is 1 December 2016.

Russian accessories designers may apply for an exhibition space at the following email address: lorberg@mail.ru. The contact person is Ms Galina Estomina. For international applications, contact Ms Maria Luisa Cardosa Heredia at cardosa@igedo.com.
