MUSIC / VIDEO

The playing of music or videos at the stand require the prior consent of the organizer. The exhibitor must observe the relevant regulations.

To ensure that noise levels stay within acceptable limits both for neighbouring stands and the exhibition hall in general, the reproduction of music and/or videos is subject to permission.

Recommendation:

The volume of the music at the stand depends on the stand design and, in particular, on the type and mounting of loudspeakers, i.e. if you use several small loudspeakers and install them in a downward direction the volume will be sufficiently high and uniformly spread across your entire stand.

If music is reproduced without a permit from the fair management, the power supply to the stand will be disconnected. This also applies in the event of problems with excessive volume. We pledge your understanding on behalf of all parties involved in the fair.
